SOLAR

Billing — Squirrels on Film

Based in San Francisco, California

ARTIST BIOGRAPHY

It's easy to avoid tired tropes when talking about Solar. The typical cheeky embellishment of an artist biography is simply unnecessary in this case.

He's been a prime player across several decades of the Bay Area's underground dance music timeline. He's an experienced, skilled, and creative selector - one who makes the well-worn quip of a "DJ's DJ" seem pithy and redundant. As a part of Sunset Sound System, he and his partners have peppered California and beyond with 25 years of thoughtfully conceived and carefully crafted events, chief among them the delightful and dreamy Sunset Campout. He presents spacey, tough, intuitive, and often psychedelic music to the universe via his (and C.L.A.W.S.) label, Squirrels On Film. He's delivered focused and inspired mixes to myriad curatorial collaborators including Dekmantel, Resident Advisor, Boiler Room, and Rush Hour.

Most of all, though, he's a person of passion, consistency, dedication, and skill who can make your party a better place by sharing his spirit, creativity, and vision.
