ARTIST BIOGRAPHY

Having released on such acclaimed labels as Delsin, Tresor and Rush Hour it's clear BNJMN has a knack for making music that stands out and at the same time works on the floor. Not only this, he is fast becoming known as one of the most unique DJ's on the scene – seamlessly blending ambient, hypnotic, sci-fi Techno and beyond, all with the signature BNJMN sonic vision. After refining his sound year on year since his debut breakthrough album in 2011, the discography of the Berlin-based Brit continues to evolve; never staying the same and continuing to surprise. 2019 saw him release his second EP for the Bright Sounds imprint entitled "Sensei", along with a full ambient release on his Tiercel label. He has also recently contributed to the Inveins and Deep Space Helsinki podcast series; as well as wowing audiences with his updated live show.
