Billing — Atomnation

Based in München, Germany

### **ARTIST BIOGRAPHY**

It is always a satisfying experience when an artist manages to actually create a modern sound by implementing what makes dance music so dearly appreciated amongst enthusiasts: Blended noises, repetition and some cheeky, unexpected madness.

Sam Goku does that in his productions - with a sleek straightforwardness that one would not expect from a rather hypnotic beat.

While various appearances in some of Europe's most established clubs and his eclectic set at 2017's final rendition of Secret Garden Party put him on the map as an acknowledged DJ, Sam Goku has never stopped to refine his skills as a mixer and selector.

In 2020 Sam Goku started to work on his debut Album that will release on Dutch imprint Atomnation in 2021.
