Based in Berlin, Germany

### **ARTIST BIOGRAPHY**

Rosa Red's sets are all about catching the vibe – reading the room, choosing the right tunes, and making people dance. Her passion for powerful and uplifting House music already brought her to play at Tresor, Robert Johnson, Nitsa, Fabric and made her quickly a regular at Munich's famous Blitz Club.

While her musical beginnings lie in the niches of Rock and Punk as well as playing Bass in Munich bands, she didn't stop the journey there and started to explore the vast world of electronic music. Soon she traded the bass guitar with turntables, finding joy in discovering links between styles and genres.

But her creativity didn't stop here: the logical progression from playing music to making music led Rosa to her first two EPs landing, both of which landed on planet Permanent Vacation, who share a tight bond with Rosa Red.
